

MAISON CROYEZ

Offer Workshop Guide

Products, unit economics, Meta performance, Shopify sales, subscriber health and every offer tested since July 1, 2026.

Prepared for Jose · Data through September 24, 2026 (subscriber status as of September 25) · Sources: Shopify Admin API, Meta Ads API, Subi customer tags

The one-paragraph version. Since July 1 you have spent \$42,545 on Meta to bring in 350 new customers (269 of them subscribers) and \$36,839 of Shopify sales. Front-end contribution before ads is \$9,305, so the business is -\$33,240 behind after ads, and renewals are what pay that back. The two best weeks (Jul 27 and Aug 17) bought subscribers at \$87 each with a \$39.95 entry price and a visibly free diffuser. Every move that raised the entry price, stretched billing to 45 days or removed the subscription made the week worse. Of 226 subscribers started, 155 are paying on schedule, 41 are stuck in failed payment, and only 5 have truly cancelled.

1. Products and cost of goods

Active catalog on maisoncroyez.com as of September 25. Costs are the unit costs stored in Shopify (diffuser \$26, scent \$9). The "target" columns show the same catalog if the diffuser lands at \$22.50 and the scent at \$4.50.

Product	Type	List price	COGS today	Gross margin	COGS target	Gross margin
Crisp Citrus Scape – Abundance (100 ml)	Scent	\$49.95	\$9.00	82%	\$4.50	91%
Midnight Sensation – Love Manifestation (100 ml)	Scent	\$49.95	\$9.00	82%	\$4.50	91%

Home Diffuser Kits · Studio Kit (1 diffuser)	Diffuser kit	\$79.95	\$26.00	67%	\$22.50	72%
Home Diffuser Kits · Condo Kit (3 diffusers)	Diffuser kit	\$189.95	\$78.00	59%	\$67.50	64%
Home Diffuser Kits · House Kit (5 diffusers)	Diffuser kit	\$289.95	\$130.00	55%	\$112.50	61%

Scents are titled 100 ml and tagged 60ml_fragrance in Shopify; confirm the bottle size before the meeting. The subscriber refill price is \$39.95 per scent (20% off list). The Diffuser Keep Fee (\$99.90) is a service line with no product cost.

Contribution per order under both cost scenarios

Each row deducts product cost, \$7.50 shipping, processing fees (2.9% + \$0.30) and \$1 handling. Ad cost is not included, so this is what each order contributes toward paying back its acquisition cost.

Order	Customer pays	COGS @ \$26/\$9	Contribution	Margin	COGS @ \$22.50/\$4.50	Contribution	Margin
Current offer · 1 scent + free diffuser	\$49.95	\$35.00	\$4.70	9%	\$27.00	\$12.70	25%
Current offer · 2 scents + 2 free diffusers	\$99.90	\$70.00	\$18.20	18%	\$54.00	\$34.20	34%
Current offer · 3 scents + 3 free diffusers	\$149.85	\$105.00	\$31.70	21%	\$81.00	\$55.70	37%

What the cost reduction buys you. Going from \$26/\$9 to \$22.50/\$4.50 adds \$8.00 per 1-scent kit, \$16.00 per 2-scent kit and \$24.00 per 3-scent kit at the front end, and \$4.50 per scent on every renewal. On the current mix (about 60% of paying subscribers on 1 scent) that raises the average renewal contribution from roughly \$25 to \$30 per order and shortens payback of a \$158 subscriber by about one renewal cycle.

2. Meta Ads since July 1

Ads started on July 15; there was no paid traffic July 1–14. Shopify figures below count first orders from new customers (subscription and one-time) in the same window, so "cost per new customer" is blended, not Meta-attributed.

\$42,545 Meta spend, Jul 15 – Sep 24 (66 days with spend)	393,822 Impressions · CPM \$108.03	23,404 Clicks · CTR 5.94% · CPC \$1.82	328 Meta-attributed purchases · Meta CPA \$130 · Meta ROAS 0.54×

3. Shopify sales since July 1

Paid orders only, net of refunds. \$0 orders (samples, replacements, internal) are excluded. Shipping is a flat \$7.50 estimate per shipment, fees are the actual Shopify Payments fees, handling is \$1 per order.

September	192	\$16,758	49	\$5,272	96	\$5,733	47	\$5,753

Renewal revenue is growing month over month (\$1,688 in August, \$5,733 in the first 24 days of September) while new-subscriber revenue fell in September as the offer moved to kits and then paused. September's one-time revenue includes the no-subscription kit orders from Sep 7–18.

4. Subscriber status

As of September 25. "Started" counts unique customers with a first subscription order since July 1; duplicate contracts from merges are collapsed to one customer. Status comes from Subi's customer tags cross-checked against renewal orders.

Cadence mix: 152 on 30-day plans, 74 on 45-day plans. Subi's dashboard shows MRR of about \$14.7K because it counts every non-cancelled contract at list price, including paused, duplicate and failing contracts.

The retention picture in one line. Of subscribers whose first renewal was due, 65% paid it. Almost none of the rest cancelled: they are cards that failed and were never recovered, because Subi's fallback is "skip this billing cycle" and its recovery rate is 21%. Fixing payment recovery (fallback to Pause, SMS with the update-card link) is worth about \$2,001 a month, more than any pricing change on the table.

5. Offers tested, week by week

First orders only (renewals excluded). CPA is Meta spend divided by new customers; cost per subscriber divides by new subscribers. Front-end margin is the week's contribution before ads. Click-to-order is new customers divided by Meta clicks.

The offers in detail

Period	Offer	Landing page and copy	Result
Jul 15 – 26	Free diffuser (listed \$120) with one 100 ml scent on a \$39.95 monthly subscription. Customer pays \$39.95, free shipping.	maisoncroyez.com/pages/free-diffuser · Creative Test 01 (ABO)	Creative testing. 33 subscribers at \$150–\$295 each while Meta found the audience. 100% subscription share.

Jul 27 – 31	Same offer, scaled. 27 of 32 orders were the plain 1+1.	/pages/free-diffuser · "B copy": "Attract What You Sense", law-of-attraction angle, "free with your first scent while inventory lasts". Best ad: MAISON 4 video, \$1,006 for 20 purchases.	Best volume week: 53 new customers, 51 subscribers, \$87 per subscriber, 96% sub share. Front margin only \$333 on \$3,234 because the \$26 diffuser ships for \$39.95.
Aug 1 – 9	Diffuser list dropped to \$89.95 (still free), scent raised to \$49.95 and billed every 45 days. First 2-diffuser kit at \$89.95 appears.	/pages/free-diffuser	Cost per subscriber rose to \$144 and click-to-order fell to 1.5%. Front margin improved (\$917) but acquisition got 65% more expensive. The 45-day cohort later renewed worse.
Aug 10 – 23	Back to \$39.95 per scent every 30 days, diffuser \$79.95 free. Customer picks 1, 2 or 3 scents and gets a matching number of free diffusers (\$39.95 / \$79.90 / \$119.85). Post-purchase scent upsell \$39.95, protection pass \$4.95.	/pages/build-your-kit · Top Performers CBO · "E copy": "17 FREE DIFFUSERS LEFT!", five-star-hotel angle, 30-day money-back guarantee. Best ad: MAISON 1 video, \$1,491 for 17 purchases.	Best week of the program (Aug 17–23): 44 new customers, 41 subscribers, \$81 CPA, \$87 per subscriber, 3.05% click-to-order, 43% of buyers took 2 or 3 scents. Same subscriber cost as July but more scents per subscriber.
Aug 24 – Sep 1	Kits, bundles and the Six-Month Program; no-subscription purchase options added; scents shown at \$49.95.	/pages/six-month-program · /pages/build-your-kit · Testing ABO 8.26 and CBO 8.30	Subscription share collapsed to 63% then 22%. Cost per subscriber \$236–\$642. First stretch of blended ROAS above 1.0× only because renewals had started. Ads paused Sep 2–6.
Sep 7 – 13	Special Kits: 2 diffusers + 2 scents \$89.95, 3 + 3 \$129.95, subscription optional, kit re-bills every 45 days. Scents \$49.95 as add-ons.	/pages/build-your-kit-2 · Testing CBO 9.6	Biggest week by orders (55) and best front margin per order, \$102 CPA, but only 47% subscribed so cost per subscriber was \$216. Blended ROAS 1.3–1.6×.
Sep 14 – 18	Added 2 diffusers + 3 scents \$119.95 and 3 + 4 \$159.95, mostly without subscription.	/pages/build-your-kit-2	Worst stretch: \$176 CPA, 52% sub share, \$337 per subscriber, click-to-order 1.3%. Meta CPM was also at its highest (\$200+).

Sep 19 – 24 (current)	"You pay for the scents, the diffusers are free": 1 scent \$49.95, 2 for \$99.90, 3 for \$149.85, each with the matching Home Diffuser Kit discounted 100%. Subscription required, refills 20% off at \$39.95. One-time path charges the diffuser in full.	/pages/free-diffusers · Free Diffusers CBO (winner) and ABO Interests + LIL (paused Sep 23)	CBO started at \$82 per purchase on Sep 21–22 then slowed (2 purchases on the next \$859). ABO spent \$1,318 for 1 purchase. Week: 13 new customers, 10 subscribers, 77% sub share, \$275 per subscriber, 85% of buyers took the 2-scent tier or higher. Too early to judge; landing-page add-to-cart rate dropped from 37% to 14% between Sep 21 and Sep 22.

6. What the data says for the offer meeting

What worked

- **A \$39.95 entry price with a visibly free diffuser.** Both \$87-per-subscriber weeks had exactly this. Nothing else you tried got below \$100.
- **Tiers on the build-your-kit page.** Letting people choose 1, 2 or 3 scents doubled the scents per subscriber at the same acquisition cost (Aug 17 vs Jul 27).
- **30-day billing.** The 30-day cohorts renew better than the 45-day ones, and the 45-day switch in early August coincided with a 65% jump in subscriber cost.
- **The E copy on video.** "17 free diffusers left" plus the guarantee produced the best click-to-order ever (3.05%).
- **CBO over ABO.** Every ABO test (Aug 26, Sep 21) lost to the CBO running the same creative.

What did not

- **Raising the entry price** (\$49.95 in August, \$89.95 kits in September). Front margin per order went up, but subscriber cost went up faster.
- **Making the subscription optional.** Sub share fell from 93% to 22–52% and the business is built on renewals, not first orders.
- **45-day cadence.** Fewer renewals per year and worse first-renewal rates.
- **Interest and lookalike ABO campaigns** at \$200+ CPM.

The economics any offer has to clear

- At today's costs a \$39.95 1+1 order loses about \$4 at the front end; at \$22.50/\$4.50 it makes \$3. The 2- and 3-scent tiers are positive under both.
- A paying subscriber on one \$39.95 scent contributes about \$22 per renewal (\$26 at target costs). Paying back a \$158 subscriber takes 7 renewals today and 6 at target costs, so first-renewal rate and payment recovery matter more than the last \$5 of price.
- Payment recovery is the cheapest lever: 41 subscribers and \$2,001/month are stuck on failed cards with a 21% recovery rate. Set the Subi fallback to Pause and text the update-card link.
- Renewals are now 44% of September sales. Every month the base renews, the offer has to work less hard.

Suggested framing for the meeting. Keep the rule "you pay for the scents, the diffusers are free" and the 1/2/3 tiers. Decide whether the entry point should return to \$39.95 (proven \$87 subscribers, thin or negative first-order margin, needs the \$22.50/\$4.50 costs to break even) or stay at \$49.95 (better margin, unproven at scale, one week of mixed data). Whatever the price, keep the subscription required and the plan at 30 days, put the money into the CBO with E-copy video, and fix Subi recovery before scaling spend.

Assumptions: shipping \$7.50 per shipment (estimate), handling \$1 per order, fees are Shopify's reported fees where available otherwise 2.9% + \$0.30. Meta spend is from the ad account daily report; Shopify orders are net of refunds and exclude \$0 orders. Subi contract data is not available through the API, so failed-payment counts are inferred from overdue renewals of subscribers Subi still tags as active.
